

Yu-Gi-Oh!

3 vs. 3

Tournament Overview:

The 3 vs. 3 Team Dueling event offers a Team-style format for players to play Yu-Gi-Oh!.

This event format offers exclusive prizing – such as the 3x3 uncut sheets, which are offered only at the 3 vs. 3 Team Dueling event.

Event Details:

The 3 vs. 3 Team Dueling event will be Advanced Format Constructed, Swiss with no Playoff Cut.

Players must use three KDE-E Registration Form sheets to register for this event. The deck lists should be ordered in such a way that top player is automatically Player A, the middle is Player B, and the bottom is Player C. Players should also mark their Deck Lists to display this and ensure they are in the correct order when they are registering for the event. In the event that Deck Lists are found to not be clearly marked, the Deck List on top will be assumed to be player A, the middle list B, and the bottom list C, and this cannot be changed once the event has started.

Player A is the Team Captain and is the primary point of contact in regards to administrative purposes.

Each team must register a Team Name. The Team Name must be written on the top of the Registration Form. Team Names may not be offensive or disrespectful in any manner. Event Staff reserve the right to request a new team name if they feel the name may be inappropriate.

Basic Rules:

When registering for the tournament, each team will designate one Duelist on the team to be Duelist A, one to be Duelist B, and one to be Duelist C.

Team members must keep their team designation throughout the tournament.

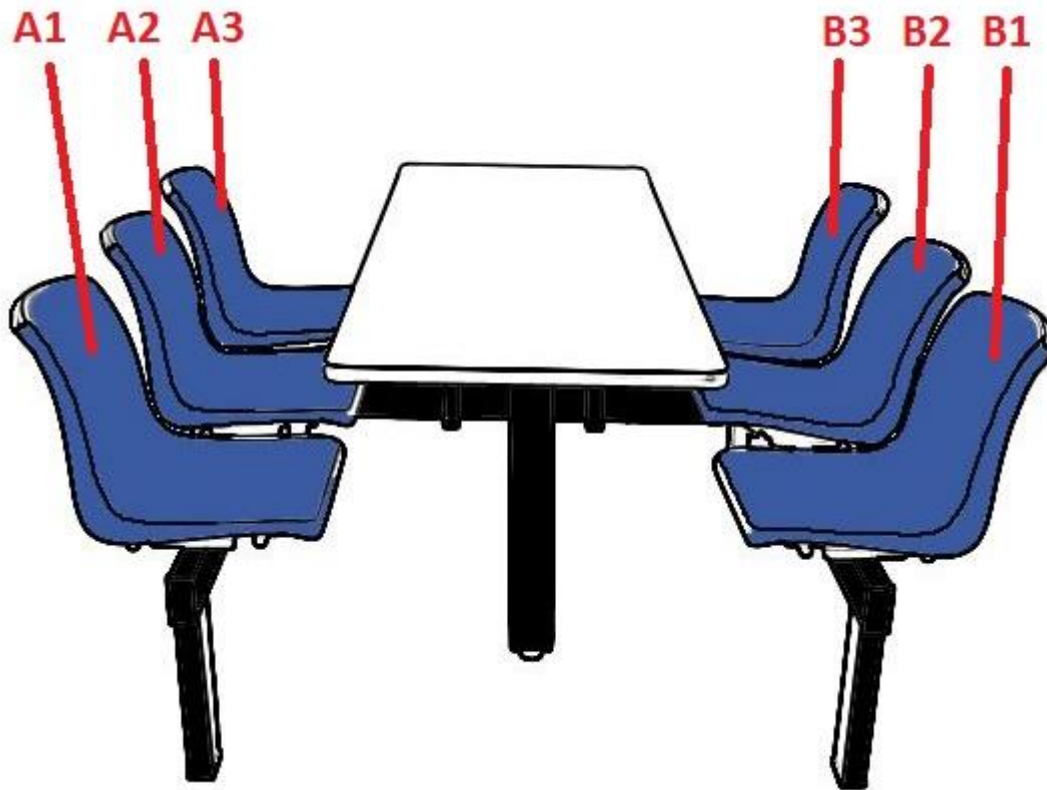

At the start of the round, Duelist A will play against Duelist A, Duelist B will play against Duelist B, and Duelist C will play against Duelist C. Team members play as individuals – they do not share cards, Decks, Life Points, etc.

All members of the team will play a best 2 out of 3 match.

The team with the most Match wins gets the win for the round.

Example of play:

Team 1 (Duelist A₁, Duelist B₁, and Duelist C₁) and Team 2 (Duelist A₂, Duelist B₂, and Duelist C₂) play each other in Round 1.

Duelist A₁ sits across from Duelist A₂, and they play each other, best 2 out of 3.

Duelist B₁ sits across from Duelist B₂, and they play each other, best 2 out of 3.

Duelist C₁ sits across from Duelist C₂, and they play each other, best 2 out of 3.

At the end of the Round, the teams compare Match wins.

Duelist A₁ won the Match against Duelist A₂.

Duelist B₁ won the Match against Duelist B₂.

Duelist C₁ lost the Match against Duelist C₂.

Since Team 1 has 2 Match wins, Team 1 wins the round.

Drops:

If a player drops, or is dropped from the event, the whole team is considered to have dropped from the event. Teams cannot replace a player once the tournament has begun.
